CASE STUDY

Oil & Gas Producer

ABOUT THE CLIENT

Industry	Oil and Gas
Revenues	$ billion
Employees	~100,000
Location	Worldwide
BSI Service or Solution	Upstream Technology Research

Key Challenges
- Downtime due to equipment fatigue
- Lost drilling days
- Loss of production and revenue

Why BSI was Selected
- Deep knowledge of wellhead systems
- Cutting edge technology research

Project Scope
- Xmas trees
- Wellhead systems

Project Approach
- Increase reliability and uptime in fatigue-prone zones

Financial Benefits Realized
- 90% increase in production rates

Operational Benefits Realized
- 100% increase in number of drill days
- Expanded options for more drilling or workovers before fatigue affected production
